Managers Report: We discussed current operations going on. A trap of ours was stolen from behind the Mill and we never were able to get it back. We discussed the return of our drone and plans of keeping this one as a backup so that we don't run into the problem we had this summer. We discussed some possible annexation of some property in Sweet/Ola area. The current budget and where we are standing. We had a constituent attend our meeting and voiced some concerns about a property that overflows its pasture regularly and is causing major problems. He wanted to know what we do to that property. What product was used in aerial because it was so effective. He was ultimately happy with what we are doing but would like more to help relieve the mosquito problem in his area.
